P R E F A C E

With this issue, the Directory enters the fifth year of its publication, covering the academic session 1957-58. It gives information about the courses of study available in the colleges and describes the type, jurisdiction, departments of studies and academic terms of the universities together with the medium of teaching and examination used in each. In incorporating the requisite information about colleges affiliated to Boards of Intermediate Education as well as non-affiliated educational and/or research institutions, it covers the entire field of higher education in the country.

In view of the great demand for professional and technological education, this Directory, as usual, gives special attention to institutions providing such education. These institutions have been classified according to subjects and the minimum admission requirements for and the duration of the first degree courses in each subject have been indicated. General information about the total intake, reservation of seats for backward classes and for different States, the fees charged, the last date for submitting applications for admission and the date of the commencement of the session etc., in Engineering and Medical colleges has been revised and brought up-to-date for the session 1958-59.

It is a matter for satisfaction that the previous editions of this book have been well received by students and others in this country and abroad, which shows that it has been meeting a genuine need. My thanks are due to the Universities, the State Governments and other institutions which have been good enough to supply the information required for this publication.
